

# Infra Red Command Remote Control Extender

## Install Your Devices Out of Sight

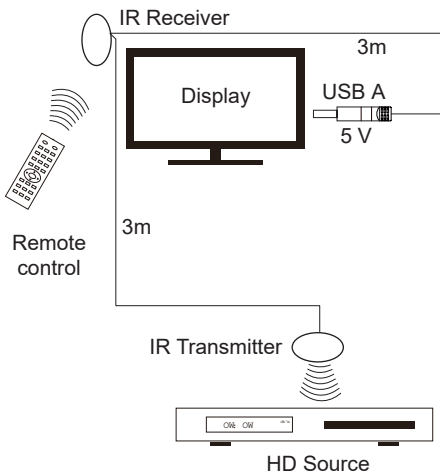

### IREUSB

Enables AV, PayTV and CCTV devices to be controlled — whilst they are concealed in a cabinet, cupboard or nearby room.

Simple to install, the device can be powered from an existing USB A port or a separate Mains to USB Power Supply (excluded). Receiver is hard wired to the Transmitter by 3m cable. Another 3m of cable connects to the USB Power.

### IREUSB FEATURES:

- Simple plug-n-play system that works with almost every device.
- Sensitive IR receiver and powerful re-transmitter mean precise device positioning is not usually necessary.
- Receiver range — up to 6 metres.
- IREUSB can also manage devices from standby.
- If connected to a USB port that remains on whilst device is in standby, IREUSB can turn on the device.
- Includes a sensitive IR receiver (Rx), transmitter (Tx) and USB power lead.

### Point to Multi Point IR Extender IREUSB4

- Includes 4 x tiny easily concealed transmitters, a sensitive IR receiver and USB power lead.
- Receiver range – up to 4 metres.
- 20–60KHz wide IR Bandwidth.
- Works with most AV devices.
- Can be powered from an always on USB A port or a separate Mains to USB power supply (excluded).

### Point to Point HDMI IR Extender IREHDMI

- Includes a sensitive IR receiver, 2 x CECIR Inserters and 1 x IR transmitter.
- Receiver range – up to 6 metres.
- Uses the HDMI CEC channel.
- 20–60KHz wide IR Bandwidth.
- Works with most AV devices.
- Powered by HDMI, no power supply required.
